

Plywood Chop Saw

High Production... Heavy Duty... American Parts

SPECIFICATIONS

- The Plywood Chop Saw is a combination of our Travel Blade Panel Saw and a Quick Fence outfeed system
- Operation: Infeed operator loads strips under the clamp and against the lowered quickfence stop. After the cut cycle the stop raises automatically and the finished parts convey under the stop to the outfeed operator for stacking
- 10HP to 25HP, 230V/460V 3PH saw motor
- Special high carbon steel arbor with precision bearings
- Uses 16" or 18" saw blades with 1" bore size
- Cut lengths of 4' to 12' are available.
- Foot print: 120" x 232" (4' cut with 10' outfeed conveyor)
- Thickness capacity: 1/8" to 5"
- Working Height: 38-1/2"
- Variable blade travel speed
- Dust ports: 6" (2x)
- Quick fence: available in lengths from 10' to 14' and widths from 49" to 122".

Simple Design, Low Cost, High Performance

Just like our other equipment

High Production...

2x to 4x faster than a radial arm saw or air up-cut saw for cutting plywood strips to length

Off-The-Shelf Parts

So you can keep it running years from now
